CAREER OBJECTIVE

Results-driven Computer Science undergraduate with a strong foundation in **algorithms, systems thinking**, and software design principles. Seeking to contribute to **high-impact engineering teams** by building **reliable, efficient, and scalable solutions** to complex technical challenges in **fast-paced, innovation-driven environments**.

EXPERIENCE

Software Development Engineer (SDE) – Escon Infra Realtor

April 2026 – Present

- Architected and scaled a **real estate CRM platform** using **Java, Spring Boot**, and **Microservices Architecture**, supporting **multi-tenant workflows** (Admin, CRM Manager, Account Manager) and handling **1000+ concurrent users**, improving **operational efficiency by 45%**.
- Designed a **webhook-driven, event-based architecture** integrating **Meta (Facebook/Instagram)** and **Google APIs**, enabling **real-time lead ingestion at scale**, reducing **manual intervention by 70%** and improving **lead processing latency by 50%**.
- Engineered a **dynamic project & page lifecycle system** to manage **multiple projects, and admin roles**, handling **edge cases** like **page deletions, token expiry**, and **external API failures**, improving data consistency and system reliability.
- Integrated multiple third-party **APIs and AI-powered features** to enhance user experience, automating data workflows and improving response efficiency by 50%, while ensuring **seamless frontend-backend communication**.

Frontend Developer Intern – WhatBytes

Jan 2026 - April 2026

- Developed a high-performance web application using **Next.js** with **SEO optimization**, improving **page load speed by 40%** and increasing **user engagement by 30%** through **server-side rendering** and **optimized routing**.
- Built responsive user interfaces as a **Frontend Developer Intern using Next.js**, implementing AI-powered features and third-party APIs to streamline workflows, enhance usability, and improve overall application performance by **50%**.

PROJECTS

HackForge – Competitive Coding Platform | [GitHub](#)

Aug 2025 – Jan 2026

- Developed a full-stack coding platform using **Angular & Spring Boot microservices**, integrating **Judge0 API** for real-time execution and **Gemini API** for code assistance; handled 1000+ submissions/day, improved responsiveness by 45%.
- Built a scalable system with **Angular (component architecture, RxJS)** and optimized **REST APIs**, enabling real-time evaluation, AI hints, and secure authentication; increased engagement by **60%** and reduced latency by **40%**.
- Tech Stack:** Angular, Java, Spring Boot, Spring Security, REST APIs, Judge0 API, Gemini API

SKILLS

Programming Languages: [Java](#), [C++](#), [SQL](#), [JavaScript](#), Typescript

Frontend Technologies: Angular, React.js, Next.js, HTML5, CSS3

Backend & Core Expertise: [Spring](#), [Spring Boot](#), Microservices Architecture, Spring Data JPA, REST APIs

Databases & Tools: MySQL, PostgreSQL, Git, GitHub, Postman, Swagger, VS Code, Eclipse, IntelliJ IDEA

Core Subjects (Subjects of Interest): System Design, Object-Oriented Programming (OOP), Database Management Systems

ACHIEVEMENTS.

- 600+ DSA problems solved**; rank 2598 in LeetCode Weekly Contest 490 (4/4 solved), rating [1576](#)
- Open Source Contributor (2025)** on [GitHub](#) — earned badges for successful **open-source pull requests**.
- Ranked **169th** on [GeeksforGeeks](#) with a **700+** coding score and solved over **400+** problems

ACADEMIC QUALIFICATION

B.Tech | Computer Science | Pranveer Singh Institute of Technology, Kanpur | Percentage: **84.17%** | **2022 – 2026**

Senior Secondary (XII), I.S.C. | R.P.M Academy, Gorakhpur | Percentage: **80.01%** | **2021 – 2022**

High School (X), C.B.S.E. | Oxford Public School, Gorakhpur | Percentage: **81.12%** | **2019 – 2020**

CERTIFICATIONS

- [Data Structure](#) | CodeHelp | Completed in 2023
- [Java Full Stack](#) | Udemy | Completed in 2025
- [Generative AI & LLM Fundamentals](#) | Udemy | Completed in 2025

LEADERSHIP/EXTRACURRICULAR

- [Technical Co-Head](#) | IGNITIA 2024: Annual Techno-Cultural Event Collaborated with teams and seniors to plan and run technical events, managing setups and issues.
